Your Fire and Rescue Authority

The Authority has an establishment of 589 people to provide a comprehensive fire and rescue service to residents. This service is delivered from 15 fire stations strategically located throughout County Durham and Darlington.

We are committed to continue to improve our service and are undertaking an ambitious service transformation programme to challenge current methods of service delivery and introduce new ways of working to reduce costs without reducing the number of fire stations or fire appliances. During a period of continually reducing levels of funding, this will enable us to redirect resources to protect front line service delivery. We consult with the communities of County Durham and Darlington throughout the year to ensure our plans take account of local priorities. The Authority's vision is Safest People, Safest Places and we aim to achieve this by:

- Identifying and reducing risks and improving safety for people in their homes
- Responding to incidents effectively and competently
- Helping local people to understand the services that we can offer and ensuring we can deliver the services that people need
- Ensuring our staff are trained and skilled to work to the best of their ability
- Ensuring we understand our financial position and performance to make informed decisions which benefit the public
- Providing services that represent good value for money

In order to provide a fire and rescue service in line with our priorities we require a budget of £28.5 million in 2018/19.

Funding

We receive approximately 40% of our funding from Government support and local non-domestic rates; the remaining amount is met through Council Tax.

What the Authority needs from you

There will be an increase in the amount of council tax you are required to pay in 2018/19.
