County Durham and Darlington Fire and Rescue Authority (the Authority) is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for. It must also ensure that public money is used economically, efficiently, and effectively.
2. The Accounts and Audit Regulations 2015 require the Authority to prepare an annual governance statement, which must accompany the statement of accounts. The Authority also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency, and effectiveness.
3. In discharging this overall responsibility, the Authority is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, which includes arrangements for the management of risk.

THE PURPOSE OF THE GOVERNANCE FRAMEWORK

5. The governance framework comprises the systems processes, culture, and values by which the Authority is directed and the activities through which it accounts to and engages with the community. It enables the Authority to monitor the achievement of its strategic priorities and to consider whether those priorities have led to the delivery of appropriate, cost-effective services.
6. The system of internal control is a significant part of the governance framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness.
7. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Authority’s policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively, and economically.

8. The governance framework has continued to be in place at the Authority for the year ended 31 March 2024 and up to the date of approval of the statement of accounts.

REVIEW OF EFFECTIVENESS

10. The Authority has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of the Service Leadership Team who have responsibility for the development and maintenance of the governance environment, the Head of Internal Audit's annual report, and by comments made by the Treasurer, external auditors and other review agencies and inspectorates.
11. The Authority has an Audit and Finance Committee with responsibility for monitoring and reviewing the risk, control and governance processes and associated assurance processes to ensure internal control systems are effective and that policies and practices are following statutory and other regulations and guidance. This includes considering the work of External Audit, Internal Audit and Risk Management and making recommendations concerning relevant governance aspects of Standing Orders.

SIGNIFICANT GOVERNANCE ISSUES

12. The Authority is fully committed to the principles of corporate governance. The Service Leadership Team and Audit and Finance Committee review, by way of an action plan, the governance issues contained within the Annual Governance Statement (AGS) on a quarterly basis. The position in relation to the action plan for 2023/24 is set out in Appendix A. Issues which were ongoing on 31st March 2024 will be included in the 2024/25 action plan. The progress made in implementing recommendations in relation to governance issues is confirmed by Internal Audit and forms the starting point of the work carried out in producing the AGS for 2023/24.
13. In addition, based on assurance work undertaken by Internal Audit during 2023/24, the Head of Internal Audit has issued a Moderate overall assurance opinion on the adequacy and effectiveness of internal control operating across the Authority in 2023/24.
14. The Moderate opinion provides assurance that there is a sound system of control in place however there are some weaknesses and evidence of ineffective controls. When taken within a context of the change the Authority continues to face, the reduction in resources and the increasing diverse nature of the Internal Audit Plan, this assurance opinion should be regarded as positive.

15. The issues detailed below have been agreed with the Service Leadership Team for inclusion in the 2024/25 action plan:

(i) Public Sector Spending

The impact of spending reductions in the public sector is a key governance issue for the Fire Authority. The Service received a higher than anticipated increase in government funding for 2024/25 which together with the implementation of riding with a crew of 4 and further efficiency savings significantly reduced the deficit over the four-year medium-term financial plan from £1.6m to £0.4m. However, further savings during the period 2025/26 to 2027/28 may be required to balance the budget going forward. Alternative delivery options for services continue to be considered and implementation plans are being progressed. Implementation will be closely monitored to ensure that planned service changes and associated savings are realised.

(ii) Assumptions Underpinning the Medium-Term Financial Plan

The assumptions made in the medium-term financial plan, particularly around savings, inflation, pay awards, employer pension contributions and potential liabilities, future Government grants and income from council tax and business rates whilst based on the best information available are subject to change from economic circumstances and public finances in general. This represents a potential risk to the Authority's medium-term financial plan which will be monitored closely to enable corrective action to be taken where necessary.

(iii) Impact of Changes to the Firefighters Pension Scheme

The service will closely monitor the impact of changes to the Firefighters Pension Scheme in terms of legislation, cost, business continuity, resilience, and local industrial relations.

(iv) Collaboration

Collaboration will continue to be addressed pro-actively in terms of collaborating with other Fire and Rescue Services, the Police, North-East Ambulance Service, and other organisations. The government have placed an increased emphasis on collaboration with Blue Light Services and this is reflected in the Authority's governance structure in relation to collaboration.

(v) Fire Service Inspectorate (HMICFRS)

In the 2021/22 HMICFRS inspection, the Service was rated as good across all 3 pillars – Effectiveness, Efficiency and People. An action plan was developed to address the areas identified for improvement in the inspection report and completion of the actions is on schedule. Preparation has now started for the Service's next inspection which is planned for early 2025.

(vi) HMICFRS Spotlight Report – Values and Culture in Fire and Rescue Services

On the 30 March 2023, HMICFRS released its spotlight report “Values and Culture in Fire and Rescue Services” which was commissioned by The Minister of State for Crime, Policing and Fire. The report draws on the evidence collected through all inspections since 2018 and recent data requests around the handling of misconduct cases and background checks of current and new employees. A gap analysis has been undertaken with the key objective to highlight any immediate actions required. Whilst the Service is well placed to address several of the recommendations with already established and well embedded processes in place such as background checks, confidential reporting lines, policies and procedures and undertaking staff engagement activities there are a few areas identified where we can strengthen. Progress in completing the actions will be monitored by the Service Leadership Team and the Authority going forward.
